

Cable for Material Control for ABG/Volvo Pavers

The cable is used to connect a Material Control Sensor to the control system of the asphalt paver. The cable is used only on Volvo and ABG pavers. An example of use could be connecting an EPM Material Control Sensor with a 6-pin screw plug to the built-in EPM Control System of the asphalt paver.

The cable is designed for the environment on pavers. It is made of PUR jacketed coiled cable giving flexibility and protection against chemicals and abrasion.

The cable has a length of 4.0m. The cable length specified is the maximum recommended length used.

6-Pin Screw Connector

6-Pin Screw Connector

Cable for EPM Material Control Sensor with 6-Pin Screw Specifications	
Part Number	S-50287/4.0
Application	Connecting Material Control to the Paver
Power Supply	12/24 Volt Systems (10-30 VDC)
Material	PUR Jacketed Cable
Dimensions, Cable Lengths	4.0m
Weight	0.6kg
Storage Temperature	-40°C to 85°C
Operating Temperature	-10°C to 70°C
Connector	2x6-Pin Screw, Female A to A D to D B to B E to E C to C F to F
