

## Joint Heater Mounting

The complete Joint Heater Mounting makes it easy to attach and detach the Joint Heater. The Joint Heater Mounting Hooks have a locking mechanism that gives a firm grip on the Joint Heater and locks it in a fixed position. The adjustable arms make it easy to change the position of the Joint Heater whenever required.

The height for the Joint Heater is adjustable by changing the length of the chain.

The Joint Heater Mounting is made of robust materials, ideal for the rough working conditions on a paver.
