

## Wire Sensor Mount Kit For Vögele Asphalt Pavers

The Wire Sensor Mount Kit serves as a mounting base of the Wire Sensor, an input sensor for the MatManager™ system.

The Wire Sensor is mounted securely in the Mounting Bracket and will be kept in the bracket during heavy vibrations from the screed.

The Bracket is mounted in an optimal position for operation, and adjustments can be made.

This Mounting Bracket is developed specifically to accommodate mounting of the Wire Sensor on Vögele Asphalt Pavers.

Wire Sensor Mount Kit

Wire Sensor Mount Kit Specifications	
Part number	SP-40006
Application	Mounting kit for Wire Sensor
Weight	1.3kg / 2.8lbs
Material	Steel
